

On-task Observation Form: Student and Peer Comparison

Student: Date: Begin time: Total observation time:	School: Grade: End time: Observer: Teacher: Activity: On-task definition:
---	---

Describe activity and define "on-task". Record whether student & peer are off-task at any point within each 10-sec interval by circling "off". Otherwise circle "on". Calculate % each student is on-task by dividing number of "On" intervals by total intervals and multiply by 100. Record % peer and student are on-task on UCE form in Comments field.

MINUTE <i>One</i>	:10	:20	:30	:40	:50	1:00
Student M / F	On Off					
Peer M / F	On Off					
MINUTE <i>Two</i>	1:10	1:20	1:30	1:40	1:50	2:00
Student	On Off					
Peer	On Off					
MINUTE <i>Three</i>	2:10	2:20	2:30	2:40	2:50	3:00
Student	On Off					
Peer	On Off					
MINUTE <i>Four</i>	3:10	3:20	3:30	3:40	3:50	4:00
Student	On Off					
Peer	On Off					
MINUTE <i>Five</i>	4:10	4:20	4:30	4:40	4:50	5:00
Student	On Off					
Peer	On Off
